PAYLOAD DRONE · SKU AX-G300

TTA G300 Agriculture Drone

Six-axis agricultural drone with a 30 L tank for spraying and seed spreading, rated at about 24 acres per hour.

TANK	WORK RATE	LAYOUT	MODES
30 L	**≈24 acres/hour***	**6-axis**	**Spray + seed spread**

The **TTA G300** is a six-axis agricultural drone with a **30-litre tank**. It sprays liquids and spreads seed or granules at a manufacturer-rated work rate of about **24 acres (roughly 9.7 hectares) per hour**. It is built for farms and agricultural contractors who want to treat fields faster than a backpack crew, more precisely than a tractor on soft ground, and without the cost of crewed aerial application.

Drone application has grown quickly in agriculture for practical reasons:

The G300 can be set up for two jobs:

Key features

30 L tank. Large capacity means fewer refills per hectare.

≈24 acres per hour. Manufacturer-rated coverage rate for productive field days.

Spray and spread. Liquid spraying plus seed and granule spreading from one platform.

Six-axis stability. Hexacopter layout for stable application at low altitude.

Contractor-ready. Suits service providers who move between farms.

Specifications

PAYLOAD & PERFORMANCE	
Tank capacity	30 L
Rated work rate	About 24 acres (≈9.7 ha) per hour (manufacturer figure)
Spray width	Confirmed in quotation
Flight time	Confirmed in quotation
Spreading capacity	Confirmed in quotation
AIRFRAME	
Configuration	6-axis (hexacopter)
Wheelbase	Confirmed in quotation

Empty weight	Confirmed in quotation
